A. G. SPALDING

Anticipating the present tendency of the American people toward a healthful method of living and enjoyment, Spalding's Athletic Library was established in 1892 for the purpose of encouraging athletics in every form, not only by publishing the official rules and records pertaining to the various pastimes, but also by instructing, until to-day Spalding's Athletic Library is unique in its own particular field and has been conceded the greatest educational series on athletic and physical training subjects that has ever been compiled.

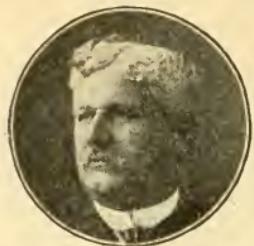

The publication of a distinct series of books devoted to athletic sports and pastimes and designed to occupy the premier place in America in its class was an early idea of Mr. A. G. Spalding, who was one of the first in America to publish a handbook devoted to athletic sports, Spalding's Official Base Ball Guide being the initial

number, which was followed at intervals with other handbooks on the sports prominent in the '70s.

Spalding's Athletic Library has had the advice and counsel of Mr. A. G. Spalding in all of its undertakings, and particularly in all books devoted to the national game. This applies especially to Spalding's Official Base Ball Guide and Spalding's Official Base Ball Record, both of which receive the personal attention of Mr. A. G. Spalding, owing to his early connection with the game as the leading pitcher of the champion Boston and Chicago teams of 1872-76. His interest does not stop, however, with matters pertaining to base ball; there is not a sport that Mr. Spalding does not make it his business to become familiar with, and that the Library will always maintain its premier place, with Mr. Spalding's able counsel at hand, goes without saying.

The entire series since the issue of the first number has been under the direct personal supervision of Mr. James E. Sullivan, President of the American Sports Publishing Company, and the total series of consecutive numbers reach an aggregate of considerably over three hundred, included in which are many "annuals," that really constitute the history of their particular sport in America year by year, back copies of which are even now eagerly sought for, constituting as they do the really first authentic records of events and official rules that have ever been consecutively compiled.

When Spalding's Athletic Library was founded, seventeen years ago, track and field athletics were practically unknown outside the larger colleges and a few athletic clubs in the leading cities, which gave occasional meets, when an entry list of 250 competitors was a subject of comment; golf was known only by a comparatively few persons; lawn tennis had some vogue and base ball was practically the only established field

### **TIM MURNANE**

Base Ball editor of the Boston Globe and President of the New England League of Base Ball Clubs; one of the best known base ball men of the country; known from coast to coast; is a keen follower of the game and prominent in all its councils; nearly half a century ago was one of America's foremost players; knows the game thoroughly and writes from the point of view both of player and an official.

### **HARRY PHILIP BURCHELL**

Sporting editor of the New York Times; graduate of the University of Pennsylvania; editor of Spalding's Official Lawn Tennis Annual; is an authority on the game; follows the movements of the players minutely and understands not only tennis but all other subjects that can be classed as athletics; no one is better qualified to edit this book than Mr. Burchell.

### **GEORGE T. HEPBRON**

Former Young Men's Christian Association director; for many years an official of the Athletic League of Young Men's Christian Associations of North America; was connected with Dr. Luther H. Gulick in Young Men's Christian Association work for over twelve years; became identified with basket ball when it was in its infancy and has followed it since, being recognized as the leading exponent of the official rules; succeeded Dr. Gulick as editor of the Official Basket Ball

Guide and also editor of the Spalding Athletic Library book on How to Play Basket Ball.

### **JAMES S. MITCHEL**

Former champion weight thrower; holder of numerous records, and is the winner of more championships than any other individual in the history of sport; Mr. Mitchel is a close student of athletics and well qualified to write upon any topic connected with athletic sport; has been for years on the staff of the New York Sun.

**MICHAEL C. MURPHY**

The world's most famous athletic trainer; the champion athletes that he has developed for track and field sports, foot ball and base ball fields, would run into thousands; he became famous when at Yale University and has been particularly successful in developing what might be termed championship teams; his rare good judgment has placed him in an enviable position in the athletic world; now with the University of Pennsylvania; during his career has trained only at two colleges and one athletic club, Yale and the University of Pennsylvania and Detroit Athletic Club; his most recent triumph was that of training the famous American team of athletes that swept the field at the Olympic Games of 1908 at London.

**DR. C. WARD CRAMPTON**

Succeeded Dr. Gulick as director of physical training in the schools of Greater New York; as secretary of the Public Schools Athletic League is at the head of the most remarkable organization of its kind in the world; is a practical athlete and gymnast himself, and has been for years connected with the physical training system in the schools of Greater New York, having had charge of the High School of Commerce.

**DR. GEORGE J. FISHER**

Has been connected with Y. M. C. A. work for many years as physical director at Cincinnati and Brooklyn, where he made such a high reputation as organizer that he was chosen to succeed Dr. Luther H. Gulick as Secretary of the Athletic League of Y. M. C. A.'s of North America, when the latter resigned to take charge of the physical training in the Public Schools of Greater New York.

**DR. GEORGE ORTON**

On athletics, college athletics, particularly track and field, foot ball, soccer foot ball, and training of the youth, it would be hard to find one better qualified than Dr. Orton; has had the necessary athletic experience and the ability to impart that experience intelligently to the youth of the land; for years was the American, British and Canadian champion runner.

SCENES AT AMATEUR ATHLETIC UNION CHAMPIONSHIPS, NEW ORLEANS,  
OCTOBER 14 AND 15, 1910.

The Amateur Athletic Union of the United States held its annual Junior and Senior Track and Field Championships in the City of New Orleans on October 14 and 15, 1910. This championship meeting was the first ever held in the far South, and was without doubt the most representative championship meeting ever held in the United States, entries having been received from the Far West, Middle West, East and South. These scenes show the large and enthusiastic audience. It is a matter of record that this was the largest audience that ever witnessed an Amateur Athletic Union Track and Field Championship in this country. The competition was keen, the management excellent, and the Amateur Athletic Union feels that it has accomplished a great deal for amateur track and field athletics in the Southern States, and it means the firm intrenchment there of this governing body.

For the first time in the history of the South, colleges competed with clubs. The entry list was very heavy. Because of the fact that the Southern colleges were not members of the S.A.A.A.U., the Birmingham Athletic Club, under whose auspices the meet was held, decided to adopt a different system of scoring. Colleges were allowed to enter teams, and their scoring was kept separate from the club entries. A trophy was offered for the college scoring the greatest number of points, and likewise was done for the club scoring the greatest number of points. This necessitated the picking of six or more men at the finish, and the judges were so instructed. If a college man was first he was scored for five points, while if a club man finished second he was also scored first, etc. The same rule applied in the mile relay race. Two trophies were offered, one for college and one for club. Below herewith are the official results of the one-mile relay race and also the general summary of the meet. As will be seen from this list, the following Southern States were represented: Texas, by University of Texas; Tennessee, by Vanderbilt and University of Tennessee; Alabama, by the Birmingham Athletic Club, Y.M.C.A., University of Alabama and Auburn University; Louisiana, by the Young Men's Gymnastic Club of New Orleans and New Orleans Y.M.C.A., and several unattached athletes also from New Orleans, among them being Sergeant Robert A. Ludlam of the Jackson Barracks Post, U.S.A., who won three events and scored second in another, winning the individual prize for highest scoring. The college athletes were registered in the A.A.U. as individuals.

1-mile relay—3m. 36 1-5s., Vanderbilt won; Texas, second; Auburn, third; Tennessee, fourth; Birmingham Y.M.C.A., fifth; Young Men's Gymnastic Club, sixth; Alabama, seventh.

### BEST PERFORMANCES OF GERMAN SWIMMERS TO NOVEMBER 15, 1910.

Compiled by Otto Wahle, New York.

It is impossible to give a reliable list of German records. The German Swimming Association does not publish a list of official records and has no rules under which records can be made. In open water, races are started from a tread water start and pushing off on turns is not permitted. In baths the start is made with a push off and contestants are allowed to make a walking step when turning in the shallow end. The timing is at times not reliable.

PROF. W. M. SLOANE,

105 East 69th Street, New York, N. Y., U. S. A.

DEAR SIR: The International Olympic Committee having decided that the Olympic games of 1912 shall be held in Sweden, we have pleasure in stating that a preliminary programme of the games, with particulars of the various events, will shortly be forwarded to you as a member of the International Olympic Committee.

The following branches of sport will be included: Athletics, Cycling (Road Race), Fencing, Gymnastics, Horse Display, Lawn Tennis, Shooting, Swimming, Wrestling, Yachting, and probably Foot Ball and Rowing.

We would now ask you kindly to arrange for a Committee being formed in your country, and to take all necessary measures in order to insure the participation of your fellow countrymen in the 1912 Olympic Games.

Would you also kindly inform all the governing bodies of sport in your country of our address?

Please communicate with us on all questions concerning the games under the address "Olympiska Spelen, Stockholm," only, when all information will be placed at your disposal.

Yours faithfully,

Organisationsommittén för Olympiska  
Spelen i Stockholm, 1912.

KRISTIAN HELLSTRÖM.

Immediately upon receipt of the foregoing letter Prof. Sloane started to formulate plans towards securing the co-operation as a unit of all governing bodies in athletic sport in the United States, with the object of selecting the most expert team possible to carry the American shield to victory in 1912. Mr. J. E. Sullivan was appointed Secretary of the American Committee, Prof. Sloane's letter notifying him of his appointment being as follows:

NEW YORK, Dec. 8, 1910.

MR. J. E. SULLIVAN, 21 Warren Street, New York.

DEAR SIR: Acting as the American member of the International Olympic Committee and in accordance with the wishes of the Swedish Olympic Committee, as set forth in the letter of the latter, dated November 18, I have appointed an American Olympic Committee, with Mr. R. M. Thompson as President, Mr. J. W. Curtiss as Treasurer, and yourself as Secretary, and it will give me great pleasure if you will undertake at once the necessary steps for the successful organization of the committee. The entire management of the team and its participation in the Swedish Olympic Games is entrusted to the Committee, which must of necessity be a large one in order to give representation to all interests and every section of the country. In order that the work may advance promptly I have created an executive committee on management, with full power to act for the Committee. James E. Sullivan, Secretary of the American Olympic Committee, stated that in all probability the same method for the selection of an American team for the Olympic Games of 1912 would be followed as in previous years, try-outs being held on the Coast, Central West, South and in the vicinity of New York, Boston and Philadelphia. The Boston Marathon will likely be designated as the official try-out for the American Marathon runners, and members of the committee will take charge of different sports, such as revolver shooting, rifle shooting, gymnastics and cycling.

### Spalding Youths' Discus

Officially adopted by the Public Schools Athletic League

### Spalding Vaulting Poles—Selected Spruce, Solid

The greatest care has been exercised in making these poles. In selecting the spruce only the most perfect and thoroughly seasoned pieces have been used. All of this goes to make them what we claim they are, the only poles really fit and safe for an athlete to use.

No. 103. 14 ft. long. Ea., \$6.00 No. 104. 16 ft. long. Ea., \$7.00

**We guarantee** all of our wood vaulting poles to be perfect in material and workmanship, but we do not guarantee against breaks while in use, as we have found in our experience that they are usually caused by improper use or abuse.

### Spalding Bamboo Vaulting Poles

Owing to differences in climatic conditions it is impossible to keep Bamboo Vaulting Poles from cracking. These cracks or season checks do not appreciably detract from the merits of the poles, although they may be wide open and extend through several sections on one side. All of our tests would seem to prove that poles with season checks may be accepted as safe and durable. Very frequently such splits or season checks can be entirely closed by placing the pole in a damp place for a day or so.

Tape wound at short intervals. Thoroughly tested before leaving our factory. Fitted with special spike.

# Schoolyard Athletics

By **J. E. SULLIVAN**

President Amateur Athletic Union;  
Member Board of Education Greater New York.

THE great interest in athletics that has developed in the public schools within recent years has led to the compilation of this book with a view to the systemization of the various events that form the distinctively athletic feature of school recreation. With its aid any teacher should be able to conduct a successful meet, while the directions given for becoming expert in the various lines will appeal to the pupil. Some of the leading athletes have contributed chapters on their specialties: Ray Ewry, holder of the world's high jump record, tells how to practice for that event; Harry Hillman, holder of the hurdle and three-legged records, gives hints on hurdle racing and three-legged racing; Martin Sheridan, all-around champion of America, gives directions for putting the shot; Harry F. Porter, high jump expert, describes how to become proficient in that event. The book is illustrated with photos taken especially for it in public school yards.

THE BEST BASE BALL EVER MADE

ANOTHER  
STEP  
FORWARD

Philadelphia, November 2, 1910.

Messrs. A. G. Spalding & Bros.,  
126 Nassau St., New York.

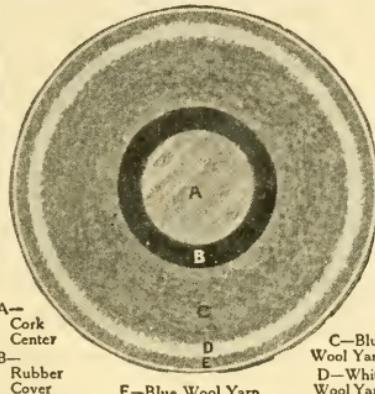

Gentlemen

In the recent World Series between the Philadelphia American League Club and the Chicago National League Club I wish to state that the Official National League Balls used in the three games played in Chicago were of exceptional quality, and I am further glad to state that in my base ball experience I have never seen a better base ball than the balls used in the three games above referred to.

Yours truly,

Connie Mack

Mgr Philadelphia American League Club

Chicago, November 2, 1910.

Messrs. A. G. Spalding & Bros.,  
140 Wabash Ave., Chicago, Ill.

Gentlemen.

In the World's Championship Series between the Chicago National League Club and the Philadelphia American League Club, three games of which were played on the Chicago grounds, I wish to advise you that the Official National League Ball, furnished by you and used in those three games were in every way most satisfactory, and also to say that during my base ball experience I have never played with a better base ball than those used in the Chicago series.

Yours very truly

Frank L. Chaney

Manager Chicago National League Club.

The Spalding "Cork Center" has not only improved the ball—it has also improved the game. Base ball played with the Spalding "Cork Center" Ball is as far in advance of the game played with an ordinary rubber center ball as the game played with the Spalding Official National League Ball of 1909 and before was in advance of the original game with the home made ball composed of a slice from a rubber shoe, some yarn from dad's woolen sock, and a cover made of leather bought from the village cobbler and deftly wrapped and sewed on by a patient mother after her day's work was done.

Base Ball to-day is no haphazard amusement, it is a scientific pastime, a sport of almost geometric exactitude. It commands the best that is in men of national prominence, and gives in return the plaudits of millions who testify by their presence and enthusiasm to the wonderful hold which this most remarkable game has upon the feelings of the great American Public.

Anything which results in making the game more interesting to the spectators is good for the game itself, providing it does not interfere with the development of the sport as an athletic pastime: The Spalding "Cork Center" Ball makes the game faster—we have the testimony of hundreds of players to this effect—it makes it more accurate and even, the ball holding its life right through the game—not getting soggy or dead in the last innings—"you can make a home run in the ninth inning as easily as in the first," as Roger Bresnahan says.

It is well for the youth of America to learn the lesson that while the cheapest things are very seldom the best things, the best are always the cheapest in the end. The price of the genuine **Spalding "Official National League" Ball** is \$1.25 each—no more and no less. The market abounds with so-called "League Balls," all listed at \$1.25 each, for the sole purpose of deceiving the purchaser and enabling the "just as good" dealer to work the discount scheme on the boy who is not posted.

This is the reason why bright boys always insist upon the Spalding Ball and decline to accept any substitute. To many parents, a ball is a ball; but to the American lad who knows, only a Spalding Ball is the genuine and Official Ball of the game, and substitution of "something equally as good" does not go with him, for he has learned that to become a good ball player and get the greatest pleasure out of the game, he must use the same ball that all the leading professional players use—and this is the **Spalding "Official National League" Ball**.

## TO THOSE WHO PLAY BASE BALL

Every modification we have ever adopted in the construction of our Official League Ball has been decided upon after exhaustive experiments, always with the sole purpose of improving the qualities of the ball. The last improvement was in the core itself. The result is that the 1911 Spalding Official League Ball is the best type of ball we have ever turned out. It is more durable, more uniform in resistance, and holds its spherical shape better than any type of base ball made heretofore by anybody. I consider the 1911 Spalding Official League Ball nearer perfection than any base ball ever made. I personally investigated this improvement when it was first proposed in 1908. I then had an exhaustive series of experiments and tests made to determine whether the core could be improved. I was present at these experiments and found that unquestionably the 1911 type of ball was a great improvement from the standpoint of the ball player as well as the durability of the ball itself. I therefore authorize the following statement:

**THE SPALDING 1911 OFFICIAL LEAGUE BALL** is the best base ball that has ever been manufactured and sold by anybody.

# Durand-Steel Lockers

**Wooden lockers are objectionable,** because they attract vermin, absorb odors, can be easily broken into, and are dangerous on account of fire.

**Lockers made from wire mesh or expanded metal afford little security,** as they can be easily entered with wire cutters. Clothes placed in them become covered with dust, and the lockers themselves present a poor appearance, resembling animal cages.

**Durand-Steel Lockers** are made of finest grade furniture steel and are finished with gloss black, furnace-baked japan (400°), comparable to that used on hospital ware, which will never flake off nor require refinishing, as do paints and enamels.

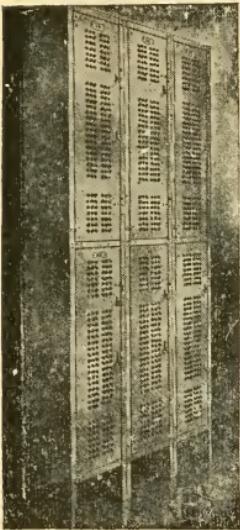

Some of the 6,000 Durand-Steel Lockers Installed in the Public Gymnasiums of Chicago. 12' x 15' x 42', Double Tier.

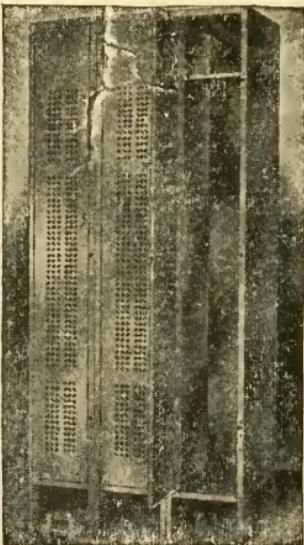

**Durand-Steel Lockers** are usually built with doors perforated full length in panel design with sides and backs solid. This prevents clothes in one locker

from coming in contact with wet garments in adjoining lockers, while plenty of ventilation is secured by having the door perforated its entire length, but, if the purchaser prefers, we perforate the backs also.

**The cost of Durand-Steel Lockers is no more than that of first-class wooden lockers,** and they last as long as the building, are sanitary, secure, and, in addition, are fire-proof.

# Standard Policy

A Standard Quality must be inseparably linked to a Standard Policy.

Without a definite and Standard Mercantile Policy, it is impossible for a manufacturer to long maintain a Standard Quality.

To market his goods through the jobber, a manufacturer must provide a profit for the jobber as well as the retail dealer. To meet these conditions of Dual Profits, the manufacturer is obliged to set a proportionately high list price on his goods to the consumer.

To enable the glib salesman, when booking his orders, to figure out attractive profits to both the jobber and retailer, these high list prices are absolutely essential; but their real purpose will have been served when the manufacturer has secured his order from the jobber, and the jobber has secured his order from the retailer.

However, these deceptive high list prices are not fair to the consumer, who does not, and, in reality, is not ever expected to pay these fancy list prices.

When the season opens for the sale of such goods, with their misleading but alluring high list prices, the retailer begins to realize his responsibilities, and grapples with the situation as best he can, by offering "special discounts," which vary with local trade conditions.

Under this system of merchandising, the profits to both the manufacturer and the jobber are assured; but as there is no stability maintained in the prices to the consumer, the keen competition amongst the local dealers invariably leads to a demoralized cutting of prices by which the profits of the retailer are practically eliminated.

This demoralization always reacts on the manufacturer. The jobber insists on lower, and still lower, prices. The manufacturer in his turn, meets this demand for the lowering of prices by the only way open to him, viz.: the cheapening and degrading of the quality of his product.

The foregoing conditions became so intolerable that, 12 years ago, in 1899, A. G. Spalding & Bros. determined to rectify this demoralization in the Athletic Goods Trade, and inaugurated what has since become known as "The Spalding Policy."

The "Spalding Policy" eliminates the jobber entirely, so far as Spalding Goods are concerned, and the retail dealer secures his supply of Spalding Athletic Goods direct from the manufacturer under a restricted retail price arrangement by which the retail dealer is assured a fair, legitimate and certain profit on all Spalding Athletic Goods, and the consumer is assured a Standard Quality and is protected from imposition.

The "Spalding Policy" is decidedly for the interest and protection of the users of Athletic Goods, and acts in two ways:

**FIRST**—The user is assured of genuine Official Standard Athletic Goods, and the same fixed prices to everybody.

**SECOND**—As manufacturers, we can proceed with confidence in purchasing at the proper time, the very best raw materials required in the manufacture of our various goods, well ahead of their respective seasons, and this enables us to provide the necessary quantity and absolutely maintain the Spalding Standard of Quality.

All retail dealers handling Spalding Athletic Goods are required to supply consumers at our regular printed catalogue prices—neither more nor less—the same prices that similar goods are sold for in our New York, Chicago and other stores.

All Spalding dealers, as well as users of Spalding Athletic Goods, are treated exactly alike, and no special rebates or discriminations are allowed to anyone.

Positively, nobody; not even officers, managers, salesmen or other employes of A. G. Spalding & Bros., or any of their relatives or personal friends, can buy Spalding Athletic Goods at a discount from the regular catalogue prices.

This, briefly, is the "Spalding Policy," which has already been in successful operation for the past 12 years, and will be indefinitely continued.

In other words, "The Spalding Policy" is a "square deal" for everybody.

# Standard Quality

An article that is universally given the appellation "**Standard**" is thereby conceded to be the Criterion, to which are compared all other things of a similar nature. For instance, the Gold Dollar of the United States is the Standard unit of currency, because it must legally contain a specific proportion of pure gold, and the fact of its being Genuine is **guaranteed** by the Government Stamp thereon. As a protection to the users of this currency against counterfeiting and other tricks, considerable money is expended in maintaining a Secret Service Bureau of Experts. Under the law, citizen manufacturers must depend to a great extent upon Trade-Marks and similar devices to protect themselves against counterfeit products—without the aid of "Government Detectives" or "Public Opinion" to assist them.

Consequently the "Consumer's Protection" against misrepresentation and "inferior quality" rests entirely upon the integrity and responsibility of the "Manufacturer."

A. G. Spalding & Bros. have, by their rigorous attention to "Quality," for thirty-four years, caused their Trade-Mark to become known throughout the world as a Guarantee of Quality as dependable in their field as the U. S. Currency is in its field.

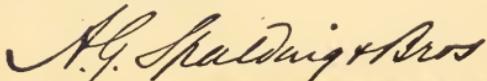

The necessity of upholding the guarantee of the Spalding Trade-Mark and maintaining the Standard Quality of their Athletic Goods, is, therefore, as obvious as is the necessity of the Government in maintaining a Standard Currency.

Thus each consumer is not only insuring himself but also protecting other consumers when he assists a Reliable Manufacturer in upholding his Trade-Mark and all that it stands for. Therefore, we urge all users of our Athletic Goods to assist us in maintaining the Spalding Standard of Excellence, by insisting that our Trade-Mark be plainly stamped on all athletic goods which they buy, because without this precaution our best efforts towards maintaining Standard Quality and preventing fraudulent substitution will be ineffectual.

Manufacturers of Standard Articles invariably suffer the reputation of being high-priced, and this sentiment is fostered and emphasized by makers of "inferior goods," with whom low prices are the main consideration.

A manufacturer of recognized Standard Goods, with a reputation to uphold and a guarantee to protect, must necessarily have higher prices than a manufacturer of cheap goods, whose idea of and basis for a claim for Standard Quality depends principally upon the eloquence of the salesman.

We know from experience that there is no quicksand more unstable than poverty in quality—and we avoid this quicksand by Standard Quality.
